

Introducing *PortalPal*

Step-by-step guide

THE
ValPal
NETWORK

How does PortalPal work?

Portal lead comes in

PortalPal emails applicant

Applicant fills in survey

Agent gets hot lead

Supplier gets hot lead

1

You (the agent) set up auto-forwarding on all of your incoming portal leads, so PortalPal receives them as well and can work in the background.

How to set up auto-forwarding

- ▶ Firstly, you'll need to log in to your Outlook account as an administrator.
- ▶ On the menu, you'll then need to select **Admin Centers** on the dropdown, followed by **Exchange**.
- ▶ Once you're in the Exchange Admin Center, you'll need to select **Mail Flow** which allows you to set up the required rule for auto-forwarding.
- ▶ Next, you'll see the Rules tab, hit the **+** dropdown and select **Create a new rule**.
- ▶ You'll then be asked to set the rule name. We recommend you call it 'PortalPal Auto-forwarding' or something similar.
- ▶ When you're asked to **Apply this rule if...**, select **The sender address includes...**
- ▶ Then you'll need to add an email address for Rightmove (**autoresponder@rightmove.com**), for Zoopla (**members@zpg.co.uk**) and for OnTheMarket (**no-reply@expert.onthemarket.com**). Click **Save** and you're nearly done.
- ▶ Next up, you'll need to choose **BCC message to...** in the **Do the following...** section. Then enter the email address '**leads@portalleads.thevalpalnetwork.co.uk**' into the Check names box and click **Ok**.
- ▶ Hit **Save** and your auto-forwarding rule will be set up and ready to go.

Not using Outlook or unable to set up at server level?
